IT'S NOT  
ROCKET SCIENCE  
THERAPY AND  
CONSULTATION

Peter Dennis Pautz  
LICSW, DCSW, BCD

For Supervision, Therapy, or  
Coaching to find your best  
Self

## **Approved Supervision for LICSW, LMHC, LMFT Licensure**

Guidelines for psychotherapeutic counseling licensure in Washington State now specify that only an “approved supervisor” can sign off for hours of therapy and clinical supervision .

With specific didactic training in clinical supervision, over a dozen years of clinical and supervisory practice, It's Not Rocket Science Therapy and Consultation can provide some or all of the required supervision for Licensed Mental Health Counselor, Licensed Independent Clinical Social Work, and Licensed Marriage and Family Therapist. Individual and group supervision is available.

## **T H E R A P Y**

I specialize in therapy for couples and individuals, emphasizing Systemic Work on Self in all relationships, including Family of Origin.

It's Not Rocket Science, but therapy is a different way of thinking about yourself and your life. I provide treatment that values Truth and Honesty, as the only route to one's True Self.

Focus on Self can address a host of benefits with which I have had great experience and success: improving self-knowledge, relationships that are based on self-understanding, recovery from abusive relationships whether experienced as an adult or as a child, better physical health, and an increase in creativity.

My strongest belief is that as one improves their sense of True Self, the ripple effects move outward to all relationships, past, present, and future; as child, partner, employee, parent, and individual.

## **C O A C H I N G**

For those seeking less intense services, or who wish to direct their personal growth efforts directly interpersonal or workplace performance, I offer an array of professional coaching services.

In addition to these goals, personal coaching can emphasize individual and innovation growth, relationship enhancement, and improved time management and life satisfaction.

Coaching services may include telephone and online consultation, career change and enrichment, and emphasis in creative skills.
